

THE GREAT K&A TRAIN ROBBERY.

Copyright, 1896, by J. B. Lippincott Company.

"Can you conceive of a man pretending to care for a girl and yet treating her so? I can't tell you the grief, the mortification, I have felt." She spoke with a half sob in her throat, as if she was struggling not to cry, while made me wish I had never been born. "It's been all I could do to control my self in his presence—I have come so utterly to hate and despise him," she added.

"My only surprise," said Lord Ralles, "is that they passed out of hearing again, leaving me fairly desperate with shame, grief, and, I'm afraid, with anger. I felt at once guilty and yet wronged. I knew I had been ungentlemanly on the trail, but I had done my best to retrieve my conduct and was running big risks, both present and eventual, for Madge's sake. Yet here she was acknowledging that thus far she had used me as a puppet, while all the time disliking me. It was a terrible blow, made all the harder by the fact that she was proving herself such a different girl from the one I loved—so different, in fact, that, despite what I have heard, I couldn't quite believe it of her."

He found myself seeking to extenuate and even justify her conduct. While I was doing this they came within hearing, and Lord Ralles was speaking.

"With you," he said. "But I still do not see what I can do, however much I may wish to serve you."

"Can't you go to him and insist that he—or tell him what I really feel toward him—or anything, in fact, to spare him? I really can't go on acting longer."

That reached the limit of my endurance, and I crawled from my burrow, reaching to get out from under that platform, whether I was caught or not. I knew it was a foolish move—after having heard what I had a little more or less was quite immaterial. But I entirely forgot my danger in the thing, and what Madge had said, and my one thought was to stand face to face with her long enough to—I'm sure I don't know what I did intend to say.

Just as I had got to the plank, however, I heard Lord Ralles ask:

"Who's that?"

"It's me," said a voice, "the station agent." Then I heard a door close. Some one walked out of the center of the platform and remarked:

"That 'ere local freight is late."

At least the letters were recovered.

CHAPTER XV.

THE SURRENDER OF THE LETTERS.

If the letters were safe, that was a good deal more than I was. The moment the station master had made his agreed upon announcement he said to the waiters:

"Had any news of Mr. Gordon?"

"No," said Lord Ralles. "And as the lights keep moving in the town they must still be hunting for him."

"I reckon they'll do considerable man hunting before they find him up there," chuckled the man with a self important manner. "He's hidden away under this platform."

"Not here!" I heard Madge cry, but I had too much to do to take in what followed. I was lying close to the loose plank, and even before the station master had completed his sentence I was squirming through the crack. As I freed my legs I heard two shots, which I knew was the signal given by the cowboys, followed by a shriek of fright from Madge, for which she was hardly to be blamed. I was on my feet in an instant and ran down the tracks at my best speed. It wasn't with much hope of escape, for once I was under the planking I found, what I had not before realized, that day was dawning, and already outlines at a distance could be seen. However, I was bound to do my best, and I did it.

Before I had run 100 feet I could hear pursuers, and a moment later a revolver cracked, plopping up the dust in front of me. Another bullet followed, and, seeing that affairs were getting desperate, I dodged round the end of some cars, only to plump into the arms of a man running at full speed. The collision was so unexpected that we both fell, and before I could get on my feet some one plumped down on top of me, and I felt something cold on the back of my neck.

"Lie still, yer sneakin' coyote of a road agent," said the man, "or I'll blow yer neck into hash."

I preferred to take his advice and lay quiet while the cowboys gathered. From all directions I heard them coming, calling to each other that "the skunk that shot the woman is corralled," and other forms of the same information. In a moment I was jerked to my feet, only to be swept off them with equal celerity and was half carried, half dragged, along the tracks. It wasn't as rough handling as I have taken on the football field, but I didn't enjoy it.

In a space of time that seemed only seconds I was close to a telegraph pole; but, brief as the moment had been, a fellow with a lariat tied round his waist was half way up the post. I knew the mob had been told that I had killed a woman in the hold up, for the cowboy, bad as he is, has his own standards, beyond which he won't go. But I might as well have tried to tell my innocence to the moon as to get them to listen to denials, even if I could have made my voice heard.

The lariat was dropped over the cross-piece, and as a man adjusted the noose a sudden silence fell. I thought it was a little sense of what they were doing, but it was merely due to the command of Baldwin, who, with Camp, stood just outside the mob.

"Let me say a word before you pull," he called, and then to me he said, "Now will you give up the property?"

I was pretty pale and shaky, but I came of stiffish stock, and I wouldn't have backed down then, it seemed to

President of the United States' Private Secretary.

Cured by the Use of the Greatest of Remedies, Dr. Greene's Nervura.

Washington's Superintendent of Police, Major W. G. Moore, Cured by the Wonderful Dr. Greene's Nervura, Was President Johnson's Private Secretary, and Formerly Secretary to E. M. Stanton, President Lincoln's Secretary of War.

MAJOR W. G. MOORE, SUPERINTENDENT OF POLICE OF WASHINGTON, D. C.

Dr. Greene's Nervura Blood and nerve remedy keeps right on curing the most noted and famous among our people as well as those in the ordinary walks of life.

We read continually about the cures of well-known prominent people by this wonderful health-giver, Dr. Greene's Nervura; but when one such eminent clergyman, statesman or public official is cured, there are thousands upon thousands of cures constantly being effected among the common people, and these are the common people who make up the great mass of our citizens, and it is they, the business man, clerk, salesman, mechanic, laborer, and the women of our land, the tolling housewife, saleswoman, shop and factory girl, who receive the most cures and best know the value of Dr. Greene's Nervura.

Dr. Greene's Nervura always brings to the weak, nervous, run-down, sick, and debilitated.

The recent cures of Dr. Greene's Nervura blood and nerve remedy of Major W. G. Moore, Superintendent of Police of Washington and District of Columbia, is of the utmost importance inasmuch as Mr. Moore is one of the best known men in this country, he having been confidential secretary to a President of the United States—President Johnson, and also secretary to E. M. Stanton, President Lincoln's Secretary of War. The cure of so well-known and famous a man is a guarantee to the people that Dr. Greene's Nervura cures.

and his written recommendation to the people who are sick, suffering or out of health in any way to use Dr. Greene's Nervura if they wish to be cured of a cure, will cause everyone who reads his words to immediately try this grandest of remedies.

Headquarters of the Metropolitan Police, Washington, District of Columbia.

"I beg to say that I have found comfort and relief in the use of Dr. Greene's Nervura blood and nerve remedy, and recommend it to all who are suffering from any of the ailments mentioned in the advertisement."

Major W. G. MOORE, Superintendent of Police, D. C.

If you are sick, suffering, out of order, run-down or do not feel just right, get Dr. Greene's Nervura blood and nerve remedy immediately. It will give you new, strong, vigorous nerves, pure blood and sound and perfect health. It will make you look and feel ten years younger, and give you a youthful zest and enjoyment of life. Don't wait, take it now and get well.

Dr. Greene's Nervura has more recommendations and medical authority behind it than any other medicine in the world. Physicians endorse and prescribe it; hospitals and dispensaries use it; and it is the prescription and discovery of the well-known Dr. Greene of 34 Temple Place, Boston, Mass., who is the most successful physician in curing disease.

Among Oxford County Farmers.

Benjamin Tucker, Norway, is among the largest and most successful farmers in town.

He has been in the milk business about twenty years, keeping from 45 to 50 head of cattle, 35 cows in milk the present season.

He has grade and pure-bred Holsteins, the herd being at present headed by a pure-bred Ayrshire bull from the herd of C. S. Hayes & Son, a very fine animal only 2 years old.

He also has two pure-bred Ayrshire heifers to come in the present fall from the Yea-ton herd.

S. S. Smith, Oxford, is well known in Grange circles, having been treasurer of the Maine State Grange twelve successive years.

He has been seventeen years on the board of selectmen, and collector more or less.

Mr. Smith has been in the small fruit business thirty years, having been the first man to carry cultivated strawberries into Norway village market.

His largest crop in one year was 140 bushels, the one following 25 bushels picked, both for the market and for his own use.

W. W. Dunham, North Paris, is well up among the successful, progressive farmers in town.

About 20 head of his stock are pure-bred Holsteins, for which he finds a ready market, both for pure-bred and grade animals.

He is also among the largest and most successful orchardists and bee men in Oxford county.

Pleasant Valley Fruit Farm, South Woodstock, F. L. Wyman, proprietor.

The apple orchard consists of about 1000 trees, very few of which are more than eleven years old, very largely Baldwins, some raised on the farm, some bought of J. P. Cobb, Bowdoinham, and a part to the farm.

This is a remarkably fine lot of trees, large and thrifty, the larger ones bearing a barrel to a tree when nine years old.

Out of a dozen New York Baldwin trees grafted in the nursery, set ten years since, only one remains, and that is a feeble tree.

Mr. Wyman has twenty pear trees and about 200 plum trees, a nice lot, from which 50 bushels of fruit were harvested a year or two since.

He has about 50 hills of currants, set in the rows between the small apples, from which nine bushels of berries were picked in one season.

One hundred and fifty hills are to be set the present fall. He has 25 hills of gooseberries, from which six bushels were picked a year or two since.

He also has an apple orchard in strawberries. Pleasant Valley Fruit Farm is remarkably well kept, and a ready market for all the small fruits and vegetables that can be raised is found at the villages of West and South Paris.

The factory of the West Paris Creamery Co. was built in 1886, and since 1887 Mr. A. J. Abbott of Paris has been agent and butter maker.

This company won five prizes at the Maine State Fair at Lewiston, 1889; five prizes, 1890; four prizes, 1892; also first prize, 1893.

Among them, best firkin, 1st; best package, 1st; best prints, 1st; best granular, 1st.

Also 1st prize at Maine State Dairy Meeting at Brunswick, Dec. 14, 15 and 16, 1892, score 98 points, and certificate of merit.

The Colman Food Exposition, Madison Square Garden, New York, October, 1892.

O. G. Curtis, South Paris, is among the best farmers in town, and has a nice set of farm buildings, the barn being 48x64 feet, the year well filled.

He thinks he has the best side in the world to take the hay from the horse fork into the mows.

It is set on plow trucks so that it is very easily run from one end of the barn to the other.

The farm consists of 165 acres, in 2d season on getting from sixty to seventy tons of hay.

He has been in the milk business ten years or more, selling both at South Paris and Norway villages.

He keeps a fine herd of from 15 to 18 cows, having customers to take 165 acres, in 2d season on getting from sixty to seventy tons of hay.

Curtis is a prominent farmer, having been Master of the Paris Grange several times, and has run the Grange store successfully some ten or twelve years.

The Waterford Creamery, South Waterford, W. K. Horn, proprietor.

G. G. Goding butter maker, has done the largest business in its history, the present season, one month turning out 17,336 pounds of butter.

At the last State Fair this company won three 1st premiums, 1st and 2d on display, and 1st premium at New England Fair.

Two special premiums were also won, that offered by the Worcester Butter Salt Company, and that offered by the Wells and Richardson Butter Color Company.

Mrs. J. H. Evans, Sweden, with her son Walter, has a good farm, a good orchard, one hundred barrels of apples this year and a good stock of cattle.

A neighbor who helped in haying tells your correspondent that the field out an average of two tons of hay to the acre.

How is that for a rough Oxford county farm? A pair of grade Hereford steers, calves, about 5 months old, were recently sold from this farm to Wm. Horne (Harbor P. O.) Fryeburg, for \$50.

How is that for calves raised by a lady farmer? Besides his other stock W. Stevens, Sweden, has five pure bred Holsteins, headed by the yearling bull Clifton Kimbo, which at 21 months old weighs 6 ft. 3 in., a fine shaped animal.

A fine looking yearling heifer weighs 6 ft. 2 in. Mr. Stevens finds ready sale for his surplus stock at fair prices.—Maine Farmer.

Our readers will be pleased to read, next week, a story of Dr. Diggle, The Invincible, a tale of the olden times, by Mark Tapley.

The county commissioners had a hearing at Bethel, Wednesday, on petition of the Harper Manufacturing Company for an abatement of taxes. On the 16th they have a meeting at the court building. There are two more hearings in road matters, this fall—one at Lovell, Nov. 30, and the other at Rumford, Dec. 7.

Royal S. Bean, state tax collector of Lincoln Plantation, recently mailed by registered letter E. S. Coe's check for some \$116 and a small amount of money sufficient to cover the tax in the plantation. Before the letter left the Berlin Falls, N. H., office it was stolen. The authorities knew of its loss before Mr. Bean did. The thieves have not yet been apprehended.

Augustus Day was arrested, Monday, at Brownfield on the charge of robbing the grave of Mrs. Roberts at Westbrook, whose grave was found to have been opened and the body removed from the coffin. Afterwards the body was found on the river bank nearby. It is said the body was secured for the purpose of disposing of it for medical purposes. Day is charged with being the principal and that he got the Rounds boy, who confessed to being the culprit, to help him.

On advice from State Detective Bassett of Norway, City Marshal Youngblood of Berlin, N. H., with Assistant Marshal Alexander, recently went to West Milan in pursuit of a team stolen at Locke's Mills. They located the parties at Wesley Horne's, over Milan Hill, and there secured the owner and a girl who gave her name as Ida B. Frost. These were brought to Berlin and Detective Bassett took the girl to Locke's Mills, also the team. The girl was about 13 years of age. The man, Frank Smith, alias Tony Stone, made his escape but will doubtless be soon secured.

There were a good many important elections, Tuesday. The result was Republican losses all along the line. The separate features were:
New York—Tammany elected its candidate, Robert A. Van Wyck, the first mayor of Great state, but the Republicans still control the legislature.

Pennsylvania, New Jersey, Iowa and South Dakota went Republican.
The silver fusion was easily victorious in Nebraska.
Virginia—Democratic.
The city of Louisville Democratic and probably the state of Kentucky.
Ohio probably Republican.
Maryland and Kansas in doubt.
Democratic mayor in the city of Detroit.
Utah and Colorado afford no reliable figures, yet.

MRS. LYNSS ESCAPES

The Hospital and a Fearful Operation.

Hospitals in great cities are sad places to visit. Three-fourths of the patients lying on those snow-white beds are women and girls.
Why should this be the case?
Because they have neglected themselves! Women as a rule attach too little importance to first symptoms of a certain kind. If they have toothache, they will try to save the tooth, though many leave even this too late. They comfort themselves with the thought that they can replace their teeth; but they cannot replace their internal organs!

Every one of those patients in the hospital beds had plenty of warnings in the form of bearing-down feelings, pain at the right or the left of the womb, nervous dyspepsia, pain in the small of the back, the "blues," or some other unnatural symptom, but they did not heed them.

Don't drag along at home or in the shop until you are finally obliged to go to the hospital and submit to horrible examinations and operations! Build up the female organs. Lydia E. Pinkham's Vegetable Compound will save you from the hospital. It will put new life into you.

The following letter shows how Mrs. Lyness escaped the hospital and a fearful operation. Her experience should encourage other women to follow her example. She says to Mrs. Pinkham:

"I thank you very much for what you have done for me, for I had given up in despair. Last February, I had a miscarriage caused by overwork. It affected my heart, caused me to have sinking spells three to four a day, lasting sometimes half a day. I could not be left alone. I flowed constantly. The doctor called twice a day for a week, and once a day for four weeks, then three or four times a week for four months. Finally he said I would have to undergo an operation. Then I commenced taking Lydia E. Pinkham's Vegetable Compound, and after one week I began to recover and steadily improved until I was cured completely. By taking the Pinkham medicine, I avoided an operation which the doctor said I would certainly have to undergo. I am gaining every day, and will cheerfully tell anyone what you have done for me."—Mrs. T. Lyness, 10 Frederick St., Rochester, N. Y.

Extremely Nervous

Barely Able to Crawl Around—Now Perfectly Cured and Doing Her Own Housework.

"I was extremely nervous, barely able to crawl around, with no strength or ambition. I could not sleep, would have very bad spells with my heart, and my stomach was in a terrible condition. I had dreadful neuralgia pains in my side, and would be dizzy. In the midst of it all I had malarial fever. I was miserable for months after; could not sit up over half an hour without being all exhausted. At last one of my neighbors wanted me to try Hood's Sarsaparilla. I was persuaded to do so, and in a little while could eat and sleep better. This encouraged me to continue. I have now taken five bottles, and am perfectly cured. I am doing my housework alone." Football at Bridgton.

Oct. 30.
We reached their bloomin' center an' we run
their boom' ends.
We smashed 'em and crunched 'em as if they
were any friends.
We sent a man out 'round the left, right thro'
an awful mix.
They saw us, and they called us, and they
put it six to six.
Football Ballads.

It was with great eclat that Captain James Tubbs led out his tigers on the Bridgton gridiron, last Saturday. The grounds are situated on the top of a peninsula, about 10,000 feet above the level of the sea. As the Bridgton boys could only secure the grounds for two games, they (the grounds, not the boys) were in rather a confusing condition. The game opened at 2, with Norway's. The game went far into the azure dome, and it fell well down the field. Cannell gathered it in, and with a gallant stride struck for his heartstones and his sires. Six good men and true met, and shortly after this he stopped. A short end play followed for a gain of four yards. Then they whanged up the center for four yards more. A criss-cross was next introduced and Jackson toted the ball half-way up the field. Wiley met him like a hungry cat. Another center play was tried, but rolled back with no gain, like as the waves recede from Seguin Light. A bittern rose, near by, with a shriek of glee. We, versed in divination, took this as a good omen, and it was. As an men it was simply Herculean. For the Bridgtons fumbled the ball and B. Tubbs merrily scooped it in. Then Wiley went around the left end for fifteen yards. Then he bucked the center for three yards. Next, Rowe sprinted by the right end for half the field, and he went like as a head man south to his dinner. Stearns tried the left, but was blocked by Cannell. Then the bittern let out another yell and Wiley made a magnificent sprint, far up the field. Stearns tried the left end again, and amid the clamor of your honest correspondent, made touch-down. Wiley kicked the goal. Score, six to a doughnut.

Bridgton kicked off. Currier stopped it, but stepping into a prairie dog's hole, fell. Right end, no gain. Left end, a fumble. Bridgton took the ball. They fumbled it on the first play. B. Tubbs once more hampered their festivities by gathering it close to his bosom. Wiley gained two yards around the right end and then bucked the center for 4 more. End of first half.
Second half. Bridgton kicks off. Netted by Horne, and carried to the center of the field. Stearns lugged around the left end for four yards. Bridgton takes the ball. They gain four yards on a center play. Then K. Allen passes the ball left end by a great sprint and secures a touch-down. Goal by Jackson. Bittern dead. Norway kicks off. Allen tries the left end, then turns back and tries the right. Bridgton loses five yards on a fumble. Center play, no gain. Right end, no gain. Right end again, and a goodly gain. Center play, no gain. Time almost up. Left end play, and the visitors force them down the field. At this point, Stearns captures the ball on a fumble. Wiley rushes the right end like a wild cat. Time up. It was the hottest, nearest game we have seen for a long time. The Bridgtons outweight the Norway boys, but could make no center gains to speak of. Jewett, as usual, plays a fine game. Jordan put up a nice article and showed what he was padded for. The field was rough, and stubbly. Nevertheless, all played like rotary snow plows. We once gazed on two freight trains endeavoring to pass on a single track. It was tame and drowsy when compared with the dash and snap of the rampaging way in which the two vicious individuals telescoped each other. And yet, no one was hurt but the bittern.

The line-up and score:

Why is it that a hunter is sure of his game when he draws a bead on a man, and so rarely lays a deer?
Mrs. Vose of this place has returned from a visit to Lynn. She was on her tour when the story of her son-in-law was invaded.
Fred Dyer, who read law in the office of O. H. Hersey, esq., was admitted to the bar at the late court, goes to Bethel to locate.
Clement & Turner, blacksmiths, have dissolved. Cloutier stops at the stand, while Turner is to occupy the shop near the post-office.
Nearly a dozen people went to the twin cities by teams, Saturday, for the purpose of trade. This is becoming the rule as the trains give so little time to remain there.
The commoner has no rights that corporations are called upon to respect. Palmer vs. the Maine Central appears to be an exception, where he won \$550.70 for being arrested and compelled to pay his fare, when presenting his mileage ticket, and refusing to divulge his name. Damages assessed at \$1000 would have sounded better.
Meeting friend Ira Pavlin of Rumford Falls at the depot, a few days since, for about three minutes, the conversation turned on cranks, when he stated, a late definition of crank was "a man that does not think as you do." Now this fills a gap in our vocabulary, and it is sad for the ignoramus whose only effective weapon is to name all men who oppose him as cranks.
In looking over the testimonials in favor of a sarsaparilla, I had the curiosity to enumerate them, both male and female signatures. Out of 209 persons who had received great benefit, 160 were females to 60 male and many male signatures were reporting for a wife, father, mother, or some member of the family. The likeliness of 13 women, 5 men and 2 boys embellished the sheet.
"Come over and help us." Certain

people had a free pass to Rumford Falls and a special for those wishing to return the same day, a short time since, to go up and protest over the proposed railroad over and across. Some who were offered tickets did not accept. A great amount of growing has been in mind all the way along in this village over high rates and fares, and disseminations against Buckfield in particular, but when the corporation calls for help, a free pass will cover a multitude of sins. A free pass serves the same purpose here, as leniency and kindness from the officers of a whaler on the return voyage, towards the crew, when abuse had been the rule.

HARRISON.
They think of finishing up work in the corn shop, the last of this week or the first of next.

Dr. J. P. Blake has bought a small farm in Cumberland, near the depot, and will move there, this fall. C. H. Eaton has hired his place here.

John Walker and wife, formerly of Harrison, but who for a number of years have had good positions at Poland Spring, are visiting friends in this section. Mr. Walker was deputy sheriff for several years.
James S. Bean.
Maj. James Steele Bean died at his home in Morris, Ill., Oct. 27, aged 72. Maj. Bean was a native of Brownfield, and a son of Gen. Daniel Bean. When a young man he went West and settled in Illinois. He and five of his brothers fought for the Union and his title was earned on the battlefield.

Schools closed in this vicinity, last week. We hear high school will commence, Nov. 8, under the instruction of a Mr. Libby from Portland.

Geo. H. Swan of East Bethel and Herbert Buck of Milton have been thrashing the grain in the Whitman and Curtis districts, the past week. C. H. Whitman had 40 bushels, H. C. Bacon 102 bushels, E. H. Pike 165 bushels.
There is strong talk of a business revival here. It is reported that parties are negotiating for both our mills and that both are liable to be put in operation, this winter, thus giving employment to our citizens besides creating a market here for a large supply of wood and lumber, which, if true, would be a godsend to our farmers, who have just passed through one of the most discouraging seasons known for many years. Apples, corn and potatoes, which were the main dependence of many, have been with few exceptions a miserable failure. The town, however, is harvesting a good two hundred having been fed at the town farm since last March.

EAST WATERFORD.
WATERFORD PLAINS.—Charles Moors has taken a job for the winter of Mrs. L. Bisbee.

Win. Doten and family were at L. G. Stone's, Sunday. Mr. Doten expects lively times at South Paris sled factory where he works.
We are glad to know that Mr. F. B. Rounds of this place has been reappointed D. D. Grand Matron, Order Eastern Star, for this district. She is well up in the work and is a very efficient officer.

As to Hounding of Deer in Waterford.
Law of 1897, c. 3 and 5, s. 11. "Any person may at any time lawfully kill any dog found hunting or chasing a moose or a caribou or a deer, or kept for that purpose.
Any person owning or having in his possession any dog for the purpose of hunting or chasing moose, caribou or deer, shall be punished by a fine of one hundred dollars and costs for each offense."

All sportsmen and others are requested to be on the look out for such dogs. A bound said to have been owned recently in East Waterford was seen on Saturday, Oct. 30, chasing a deer on Rice's Hill, and not more than forty rods behind. Also a pack of four hounds said to have been chasing foxes, also need looking after, having been for some time very conspicuous there. Bro. Sportsmen, look out for your sport and see that these dogs are looked after and law applied or every deer will be driven away. It is a matter that concerns all true sportsmen so keep an eye open, and act promptly if need be. **FAIR PLAY.**

The above was handed to your correspondent by a local sportsman and in addition I will say to those who have hounds running at large that we are in earnest in this matter and shall protect our game from those whose ostensible business is to run foxes.

Town meeting, Saturday, was very quiet. It was largely attended. S. S. Stearns was chosen moderator. It was voted unanimously to sell the town's shoe-shop property to the Norway Shoe Company, and by another unanimous vote the price was fixed at one dollar and the selectmen were authorized to execute the deed. The article relating to abatement of taxes was passed over.

The meeting adjourned after having been in session twenty-three minutes.

The rainy weather made it a rather small audience in the opera house, Thursday night of last week. The unfortunate people from the Connecticut Institute for the Blind at Hartford, Conn., gave a very interesting concert. It was decidedly better than we expected. The band of eight pieces did some cheerful playing. H. R. W. Miles gave a pleasing piano solo and played the accompaniment. The double male quartet sang several selections and were enthusiastically applauded.

Edward H. Northrop on the cornet and John Madson on the clarinet showed surprising memory of lengthy and difficult selections. (As players, we would rather listen to Norsworthy, Knapp or Kimball, but only a few, but New England cities are rare that have such musicians as our three just named.) Stella Palmer gave a couple of humorous readings. Her vocal inflections were good but there was a painful lack of gestures. Harry L. Bills played the banjo very acceptably. The feature of the evening was the singing by Emma L. Patterson. She has a fine contralto voice, well trained, and especially beautiful in the upper register. There was an exhibition of writing with the Braille typewriter for the blind. It perforates the paper in such a way as to make finger reading easy. Also a lengthy speech on their Institute and its work, of training the blind to be self-supporting. It is five years old, and now has a half-hundred inmates ranging from one to forty years of age. There were a dozen people in the troupe here. A majority are totally blind, others can see to get around slowly, and two are not troubled as to their sight.

Household Gods.

The ancient Greeks believed that the Penates were the gods who attended to the welfare and prosperity of the family. They were worshipped as household gods in every home. The household god of today is Dr. King's New Discovery.

For consumption, coughs, colds and for all affections of Throat, Chest and Lungs it is invaluable. It has been tried for a quarter of a century and is guaranteed to cure or money returned.

No household should be without this good angel. It is pleasant to take and a safe and sure remedy for old and young.

We hear that Ernest Davis, Lyman Chute and Ned Haskell have gone to the mountains of Masson hunting.

The fine weather we are having, this fall, gives the farmers a good chance to do their fall's work and burn up the old brush about the walls and roadsides.

Everybody hereabout is aware that our enterprising townsman, Samuel H. Dawes, is a leading fruit-grower in this section, he winning premiums at State, county and town fairs, but few people know precisely, or even approximately, of the extent of his pomological culture.

But here are a few statistics showing what he actually does in this line. In 1896, he sold from his farm 1100 barrels of apples, to say nothing of the considerable amount not thus disposed of.

This fall, which is one of the poorest apple seasons ever known, his output is 75 bushels. This year his grape crop is merely nominal; but he has sold over 50 bushels of blueberries, about 35 bushels of cranberries, about 40 bushels each of raspberries and blackberries; and some 20 bushels of strawberries. The latter is only about one-fourth of an average crop, however. In 1896, he sold 50 bushels of strawberries, 50 bushels of blackberries, 50 bushels of blueberries, but no blueberries.—[News.]

A Good Thing

For Women to Remember.

That in addressing Mrs. Pinkham they are communicating with a woman—woman whose experience in treating woman's ills is greater than that of any living physician—male or female.

A woman can talk freely to a woman when it is revolting to relate her private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, not knowing full well that they should have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price they can consult a woman, whose knowledge from actual experience is greater than any local physician living.

The following invitation is freely offered; accept it in the same spirit.

Women suffering from any form of female weakness are invited to freely communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only, thus has been established a confidential correspondence between Mrs. Pinkham and the women of America which has never been broken and has induced more than 100,000 sufferers to write to her for advice during the last four months. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case.

She asks nothing in return except your good-will, and her advice has saved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

SOUTH CONWAY, N. H.

Wm. H. French and wife have been to Wells for a week's visit.

Quite a number from this place went to Boston, last week, on the excursion. All expected a fine time.

Arthur Garland of this place, who has been to work, this summer, for Mr. Joy, one of the city men who lives in the place in the summer, has finished work and returned home.

The Rev. J. Gale and wife of Intervale, N. H., were in the place, Saturday and Sunday, as the guests of their daughter, Mrs. D. Wakefield; also F. G. Cole and wife of Conway Corner were the guests of Mr. and Mrs. L. D. Mills.

Joseph NeSmith of Lowell, Mass., who owns a summer residence here, saw a number of deer together, not far from his house. He shot and killed three of them. He was very much pleased to think he had such good luck. He shot them the 15th.

The lady preacher, Miss Curry, who was in the place, has gone home to Stoneham, Mass. They still keep up their prayer meetings and intend to through the winter. They expect Miss Curry will come back another summer.

There is a good interest in the meetings now, a great many are in earnest and doing all they can for the good cause.

At Center Conway, the 14th, about 12 o'clock, the buildings owned by Edwin Willey and occupied by Frank Harmon were burned to the ground. Nothing was saved only a few clothes that they took as they left the house. No insurance on the buildings. It is a great loss for Mr. Willey is a young man just starting in life and it leaves him in poor circumstances. As he is an honest, upright man and has many friends, his loss may be partly made up to him. Mr. Harmon had \$200 insurance on his household goods and clothing but not house to cover the loss. The house was near H. B. Cotton's mills and was built seventy or more years ago, and was owned many years ago by Benjamin Gould.

Owl Story.

Frost Bunker, a famous woodsman whose name is familiar in the Moosehead region, is authority for the owl story which follows:

He was out prospecting with a party, when one of the party saw an immense owl perched in a tree. There were no weapons about, and the owl was too near to knock him from his perch, but nobody could do a thing to the old fellow until Bunker undertook the job.

This sagacious woodsman simply assumed a threatening attitude so he says, and commenced to walk around the tree. As fast as he walked the owl's head turned and by the time he had circled the tree three or four times the owl fell to the ground dead. He had broken his own neck.

Bunker says "you can't kill little owls that way, 'cause their feet won't hold long enough to kill 'em."

An article by Mark Twain written in the style of "The Innocent Abductor" and illustrated by A. B. Frost and Peter Newell, is a promise that magazine readers do not have held out to them every day. It is in the November number of McClure's Magazine that this rare feast of humor is to be served.

DR. TRUE'S ANNIVERSARY.

At the recent celebration of the eightieth birthday anniversary of Dr. J. F. True, of Auburn, Me., it was remarked that the occasion itself was a striking tribute to the value of the elixir which Dr. True discovered nearly fifty years ago. He has been a consistent taker of his own medicine and attributes to it his wonderful vitality and activity, equal to those of most men of sixty-five. Dr. True early adopted the study of natural history and especially botany and became so proficient in these studies that he has long been recognized as an authority. These studies led to the discovery of Dr. True's Elixir which has been a household remedy for nearly half a century, and which has endeared the Doctor's name to many thousand people.

Bridgton Academy.

The football players were entertained in the Academy hall, Oct. 27, at a pie supper given by the manager, Mr. Spooner, in honor of the team's victorious career, which was brought to a close Oct. 25, the last game of the season having been played. The seventeen, who were present, were highly entertained. The table was tastefully decorated and looked very inviting, laden with a bounteous supply of pies and confections. After the supper each player was called upon for a toast. All responded and several very humorous and very witty toasts were made. The supper was succeeded by some very amusing broom races, in which all took an active part. The evening closed with singing, the disbanding of the team and a hearty cheer for Captain Wright.

Among the recent alumni visitors at the Academy are Dr. Willis Kimball of Portland, Rev. Truman S. Perry, and Judge Woodbury of Bethel. Each favored the school with an interesting address. Judge Woodbury, who attended the Academy in 1834, was a schoolmate of the late Colonel John M. Adams of Portland.

DO YOU KEEP CATTLE?

Do you also keep horses, hogs or hens? If so, don't you find that your live stock is not always in perfect health? Sometimes the animals get cold, and again their digestion needs attention. You appreciate the need of medicine for yourself and other people, and why not for the dumb beasts around you?

CROCKETT'S CONDITION POWDERS,

The old reliable cattle medicine which Samuel L. Crockett used to put up, is something that can't be beat for regulating the general condition of your stock. It has saved thousands of dollars worth of animals belonging to people in this section. It is especially valuable to have on hand in the seasons when sudden and severe changes of weather and temperature are common. Prepared only by

A Race for Life.

One of the most exciting events of the season occurred, Friday evening, Oct. 22, at East Otisfield. Mr. Hazen and his friends, who were cruising in Thompson pond, one dark night, were induced to pursue a light, which they afterwards decided was a will-o'-the-wisp as far as results were concerned and which died away among the stamps of the cove.

The facts of the case are these: The Messrs. Kemp, who have been spending a short time in Otisfield and camping near Thompson pond, decided to row out some distance from the shore.

Whether the trip was for pleasure, or in the interests of science, or for practical purposes, we have not been able to ascertain. Certain it is that no instruments of a scientific or useful nature were found in the boat, although a powerful search light was brought to bear upon it.

We are of the opinion that they were attracted by the beautiful scenery of the lake and as there was no moon at that time, with wise foresight they carried a torch.

Their quiet enjoyment was rudely interrupted as they suddenly realized that they were being chased by an ocean greyhound, which occasionally infests the lake.

Although innocent, the instinct of self preservation seized them and they determined upon a race for life.

The contest was unequalled but as in the case of the Merrimack and Monitor, the smaller craft was successful. This was owing to the ease with which the small boat was managed, and the condition of that part of the pond which was unsuitable for ships of large draught.
